Memorandum

TO : Chief, Intelligence School

DATE: 26 July 1965

FROM : Chief, Orientation Faculty

SUBJECT: Weekly Activities Report No. 20
19 - 23 July 1965

1. CT Orientation

B On the basis of demonstrated student interest, the first running of the two-week CT Orientation seems to have been well received. The new Assistant for Public Affairs, Commander George Moran, who audited the course, was as keen as any CT and was most complimentary to the Faculty. ✓

25X1A

The review device and review cards developed by IOF were used on this large scale for the first time. There was much favorable comment, particularly from Commander Moran and some CT Internals (who remembered the old question list used in IOC's) and no adverse comment.

The usual physical difficulty of conducting classes outside the OTR building were compounded by having to move the class to the auditorium for the entire day of 20 July.

The recent redecoration of room 1A-07 has considerably brightened the erstwhile grim-gray room and made it seem a more interesting class area.

2. Special Program for Senior Service School Candidates

B This program was well received by all concerned, and seems to serve a valuable purpose in preparing these senior people for their service school assignments. The talk by Mr. Kirkpatrick, and the sessions on Conference Techniques and Group Behavior seemed to be the highlights of the program. Chief, Intelligence Orientation Faculty will submit a more detailed report and critique within the next few days. ✓

[] expressed keen interest in the NSC structure and certain functions of the USIB, as well as the Agency, since he said he had not been in recent touch with these matters.

25X1A

f. [] gave a three-hour presentation on "The Organization and Mission of CIA" to a group of 36 newly appointed FS0's at the Foreign Service Institute on 22 July. The last hour was devoted to a lively question and answer period, during which a good many misconceptions about the Agency's role and activities were brought to the fore, and, I think, cleared up. I feel that reaching the FS0's at this stage in their careers is a most important mission!
